

Bonaire Bird Photography Tours

Bonaire Bird Photography Tours complies with all COVID-19 protocols for tourism activities on Bonaire.

Local COVID-19 protocols are derived from the island's Emergency Ordinance.

COVID-19 protocols:

Hand Sanitizer:

You will be greeted along with a spritz of hand sanitizer. All tour participants must sanitize their hands prior to beginning the tour.

Driving:

While driving, the proper social distancing of 1.5 meters cannot be maintained, and, therefore, everyone must wear masks. Please be sure to bring your personal mask with you for the tour.

Hiking:

When hiking or otherwise outside of the vehicle, proper social distancing must be maintained. As long as this is maintained, participants do not need to wear masks in the open air, but it is still highly recommended.

Use of Scopes and Binoculars:

If scopes (or other tools or materials) are to be handled by multiple persons, they will be sanitized in between users and masks will be necessary during their use.

Scopes and binoculars are sanitized prior to each tour. You are encouraged to bring your own personal sighting device(s).

LET'S ALL STAY SAFE AND HEALTHY!
